

## Why Faber's Steel Cylinders are the best

### Faber Steel vs Aluminium Cylinders

- 1 weigh the same if not less
- 2 have superior buoyancy performance
- 3 are not affected by SLC
- 4 will last forever with proper maintenance

### Faber Steel vs other steel cylinders

- 1 are the lightest on the market
- 2 have a novel design which ensures a uniform weight distribution
- 3 have a unique coating against corrosion

**Faber**<sup>®</sup>  
CYLINDERS

Since 1972, the world leader  
in the production  
of Steel SCUBA cylinders
